

Dialysis

During your visit in Curaçao you are welcome at the Curaçao Medical Center for hemodialysis and peritoneal dialysis. Our dialysis center uses, among others, the HDF online technique and offers support with peritoneal dialysis.

In addition to our regular patients, the dialysis department of Curaçao Medical Center welcomes all patients. The care we provide includes emergencies and planned treatments, whether you are on a business trip, family visit or on the island for a short visit.

The specialized doctors, nurses and logistics staff of the dialysis center guarantee a worry-free dialysis treatment and a pleasant stay during your visit to Curaçao.

Emergency guests

Emergency guests are patients who need to come to Curaçao Medical Center for tests, treatment or dialysis. Your attending physician will contact one of our nephrologists to arrange a dialysis appointment for you.

Vacation dialysis

As a dialysis patient, you can go on vacation. There are some minor details involved, but if you are well prepared, you can easily enjoy your vacation. We welcome you to Curaçao Medical Center for hemodialysis. Your treatment takes place in a department that is fully equipped with the latest technology and expertise. Peritoneal dialysis patients are also welcome. For more information, please contact us at the email address below.

Reserve your appointment in time

To plan your Vacation Dialyses, please contact Mrs. Thahira Zevenhuizen at poli.nefrologie@cmc.cw or call her at +5999-745-0027 for an application form. Once you return this to us, you will receive a response within 2 weeks.
